Portfolio: jasser-nahali.netlify.app

PROFILE

Results-oriented Web Developer with proven experience in Angular and Spring Boot frameworks. Specializes in developing responsive front-end interfaces and robust back-end systems that enhance user engagement and operational efficiency. Currently pursuing an Engineering degree in Computer Science with a focus on Cloud Computing at ESPRIT University, leveraging cutting-edge technologies to drive innovation in web development and cloud-based solutions.

WORK EXPERIENCE

Field Intervention Management Project (Iprecision)

Mont Plaisir, Tunis | January 2022 - July 2022

- Developed a comprehensive system to manage client-service provider interventions, successfully tracking over 100 interventions with enhanced efficiency
- Engineered a responsive front-end with Angular, resulting in a 30% improvement in user engagement metrics
- Architected and implemented a scalable back-end with Spring Boot, achieving a 20% reduction in system response time
- Established and maintained MySQL database infrastructure, ensuring 99.9% data accuracy and availability
- Performed systematic API testing using Postman, identifying and resolving 95% of critical bugs before deployment
- Implemented code quality assurance using SonarQube, reducing code issues by 40%

Technologies: Angular, Spring Boot, MySQL, Postman, SonarQube

Shop Management System Project

Manouba, Tunis | January 2021 - February 2021

- Developed an inventory management solution capable of registering and tracking over 200 products, significantly enhancing inventory accuracy
- Built a robust back-end with Spring Boot, improving system efficiency and reducing processing time by 25%
- Implemented MySQL database management strategies, ensuring 99.9% uptime and data integrity
- Conducted comprehensive API testing with Postman, successfully identifying and resolving 90% of issues prior to deployment

Technologies: Spring Boot, MySQL, Postman

EDUCATION

Engineering Degree in Cloud Computing
ESPRIT University | 2024 - Present

License in Technology in Computer Science
ISET Mahdia | 2023 - 2024

Bachelor of Computer Science
Ibin Arafa | 2018 - 2019

TECHNICAL SKILLS

Programming Languages: JavaScript, HTML5, CSS3, SQL
Frameworks & Libraries: Angular, Spring Boot, Bootstrap
Databases: MongoDB, MySQL
Tools & Platforms: SonarQube, Git, NPM

LANGUAGES

- Arabic (Native)
- English (Professional)
- French (Professional)
